DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

Claims 11, 2-3, 5-6, 8, 10 and 16-22 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that storing a counter indicating a number of the transactions in the queue; storing a predetermined bound of transactions; executing a log writer process to: record the transaction in a redo log, compare the counter and the predetermined bound, if the counter is not less than the predetermined bound, then block a commit of the transaction until the counter is less than the predetermined bound, as detailed claims 11 and 16.

Claims 23-26 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that information relating to each transaction of the committed transactions has been stored at a second database system has not been received is less than a predetermined bound and blocking transactions on the first database system from committing, information relating to each transaction of the committed transactions has been stored at the second database system has not been received is not less than the predetermined bound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
